

CONTACTLESS PAYMENTS

M-132748

HOW IT WORKS

Experience a new way to pay with safe and convenient tap-and-go payments.

Also compatible with Apple Pay, Google Pay, and Samsung Pay.

Boldly Generous. Convenient. Uncomplicated.

1. Look for this icon at checkout. The icon means the terminal is contactless enabled.

2. Tap or place your card close to where the icon appears on the terminal.

3. Wait for confirmation. Once the transaction is authorized, a green light, a check mark, or a beep will let you know you're good to go.
